“Aroma 60s”

Beautiful Umbrellas for 5* hotels and luxurious villas

We created **J&E UMBRELLAS** 26 years ago with one clear goal. Ever since we still have the same goal... to produce strong, beautiful and impressive professional umbrellas! We work closely with our customer, and all together strive for beauty!

Everyday we gain more knowledge, more experience and more passion for umbrellas!

Umbrella is a great object: it protects, it covers, it makes the world more elegant....!

Eleni Maragkou Sigala
Sales Manager

Model: Kastelorizo

Wooden umbrella made of iroko wood.

Telescopic opening Double aluminum pulley system for big dimensions.

Shaft $\Phi 57\text{mm}$. ribs 18X34mm, See below all possible dimensions and telescopic mechanism in special big dimensions.

Special condition: We use only ULTIMATE NANOACRYLIC fabric for resistance to the rain and to the sun, since the fabric is treated with nanotechnology and lowers temperature up to 8 degrees. The fabric is best for South Countries with a lot of heat.

Model: Kastelorizo

Project: Aroma 60s

Model: Hydra

Fresh Hotel Athens (7th floor)

Model: Hydra

Aluminum side-arm umbrella with shaft and ribs made of aluminum.

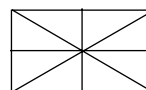

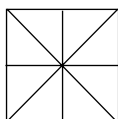

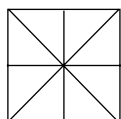

It opens with an innovative hydraulic system assisted by amortisseur.

Opens and closes very easily above furniture without moving them. Frame color white or anthracite or wood. See our video to confirm how pleasant and effortless, opening/closing procedure has become.

Special condition: We use only ULTIMATE NANOACRYLIC fabric for resistance to the rain and to the sun, since the fabric is treated with nanotechnology and lowers temperature up to 8 degrees. The fabric is best for South Countries with a lot of heat.

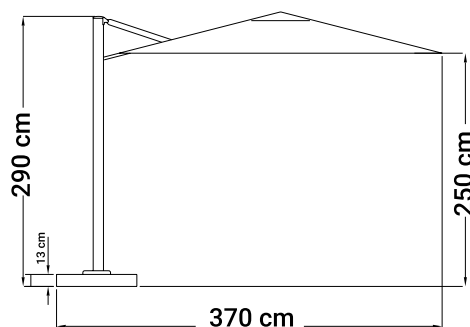

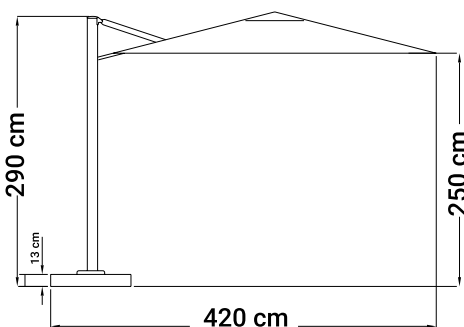

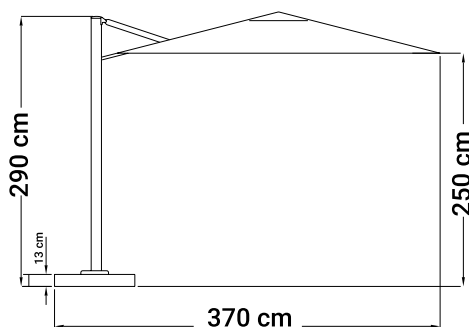

Almyros Beach Resort & Spa- 5*- Acharavi- Corfu

3x3

3,5x3,5

3x4

Model: Delos

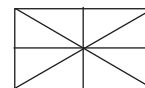

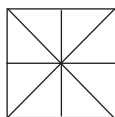

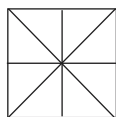

Aluminum side-arm umbrella with aluminum shaft and ribs.

Shaft profile 92x92mm is specially reinforced. Ribs profile 15x30mm.

For dimension 4x4 the diagonal ribs profile is 15x35mm.

Available shaft color white or anthracite. Opening with crank mechanism, rotates 360°.

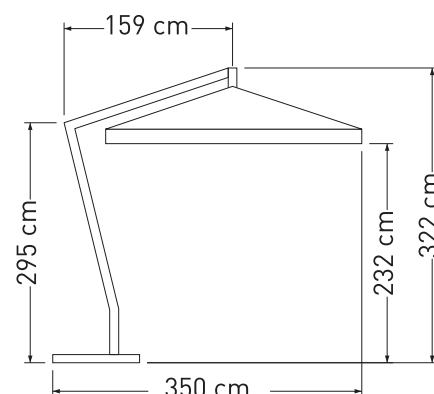

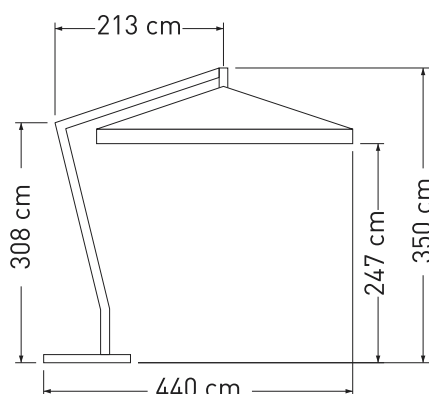

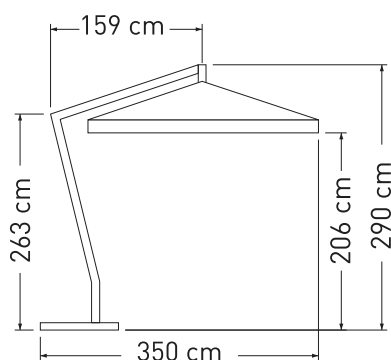

Special condition: We use only ULTIMATE NANOACRYLIC fabric for resistance to the rain and to the sun, since the fabric is treated with nanotechnology and lowers temperature up to 8 degrees. The fabric is best for South Countries with a lot of heat.

3x3

4x4

3x4

Model: Naxos

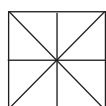

Side-arm umbrella with IPOKO WOOD vertical shaft and hardwood ribs.

Aluminum horizontal pole.

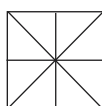

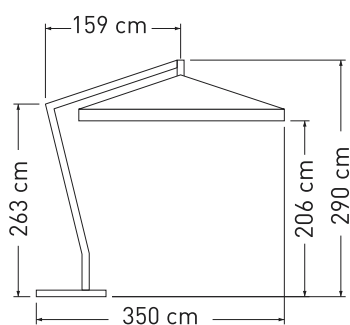

Shaft profile 92x92mm. Rib profile 17x35mm.

Opening with crank mechanism, rotates 360°.

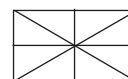

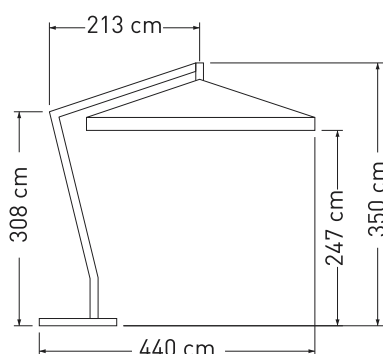

Special condition: We use only ULTIMATE NANOACRYLIC fabric for resistance to the rain and to the sun, since the fabric is treated with nanotechnology and lowers temperature up to 8 degrees. The fabric is best for South Countries with a lot of heat.

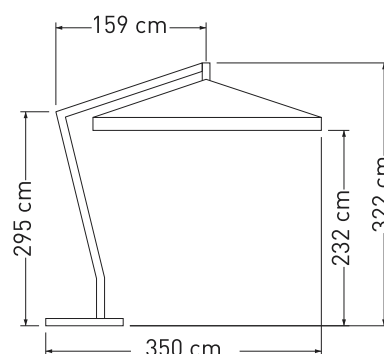

3x3

4x4

3x4

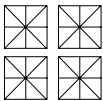

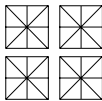

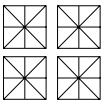

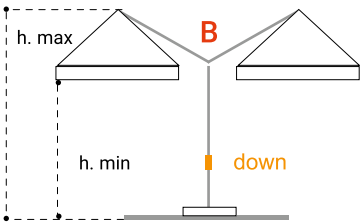

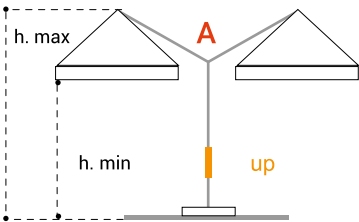

Model: Folegandros

4 Umbrella System

Central pole 112x112mm, horizontal poles 92x92mm, ribs 15x30mm.
Shaft color white or anthracite or wood. Each umbrella opens separately with its own crank mechanism. Models 7x7 and 8x8 open with telescopic mechanism that lifts the hole system up, so the 4 umbrella system closes above the tables.

Special condition: We use only ULTIMATE NANOACRYLIC fabric for resistance to the rain and to the sun, since the fabric is treated with nanotechnology and lowers temperature up to 8 degrees. The fabric is best for South Countries with a lot of heat.

This is a fix base used in cases we are obliged to fix the umbrella on the ground.
One special condition:
We should have at least 1 m² cement below our surface.

Base with metal cover.
Base dimension
106,5X106,5cm x H 5cm

The base is constructed with this special tube that bends to help us install this giant umbrella easily.

Base with adjustable feet

Model: Zakynthos

Giant Heavy Duty aluminum telescopic umbrella. Aluminum Shaft $\Phi 100\text{mm}$, with 8 ribs profile 20x35/20x40mm. In all 8 ribs we have fitted within another rib profile 30x15mm for extra resistance to the air.

Also, we have added more side ribs for extra resistance to the air.

It is constructed with “central easy repair” system, that helps substitute any rib easily.

The umbrella easily opens/closes with the use of a metal rod (see video).

Special condition: We use only ULTIMATE NANOACRYLIC fabric for resistance to the rain and to the sun, since the fabric is treated with nanotechnology and lowers temperature up to 8 degrees. The fabric is best for South Countries with a lot of heat.
